

English at St Botolph's CofE Primary School

Intent

At St Botolph's Primary School, we recognise the importance of English in supporting children in order for them to 'Strive to be the best they can'. We understand that gaining and using skills in language not only affects a child's progress in school but also forms effective communicators, ambitious writers, fluent readers and children that have the desire to learn. Our intent is that all of our pupils, irrelevant of their background or starting point, will be given the opportunity to develop their use of knowledge and understanding of spoken and written English, within a broad and balanced curriculum and with opportunities to consolidate and reinforce skills that have been taught.

Phonics Policy

2022-23

The Vision

At St Botolph's, we want every child to be successful, fluent readers by the end of Key Stage One and we believe that this is achievable through strong, quality teaching of knowledge and reading skills. Our teaching will provide the children with a firm grasp of skills, regardless of their starting point, and the confidence in themselves and their attitudes to learning. This is our vision as we know that if children have a lack of skills in this area, this can impact on other areas of learning and future career opportunities. The teaching of Phonics is the key strategy that is used to help our children to read, write and spell.

An Introduction

This policy describes our teaching of Phonics and outlines our aims, approaches and the progression across year groups.

Our school offers a systematic, synthetic approach to phonics of which we are loyal to. This is based on the theories taken from the Rose Review which stated that 'Synthetic Phonics should be taught as the prime approach in learning to decode (to read) and encode (to write/spell) (2006). We have chosen and adopted the principles of Ruth Miskin's, 'Read, Write Inc' (RWI) programme as our teaching approach. This is a vigorous, enjoyable, lively programme of phonic work that we have embedded within our curriculum and which meets the National Curriculum requirements (2014). In Read, Write Inc. Phonics lessons, children learn to read accurately and fluently with good comprehension and apply this knowledge to spell words.

Throughout the programme, children learn the English alphabetic code: the 150+ graphemes that represent 44 speech sounds. They rapidly learn sounds and the letter, or groups of letters, they need to represent them, in three sets of Speed Sound lessons. Simple and enjoyable mnemonics help all children to grasp the letter-sound correspondence quickly, especially those who are at risk of making slower progress or those who are new to learning English. This knowledge is taught and consolidated every day in 30 minute sessions. High frequency words that are not phonetically regular are taught as 'red words' and are practised frequently.

Enjoyable phonic books are specifically matched to children's increasing knowledge of phonics and 'red' words so that early on, they experience plenty of success. Repeated readings of the texts support their increasingly fluent decoding.

Within our school, the Read Write Inc. programme is introduced in the Foundation Stage and is taught progressively through the terms that follow.

Our Aims:

For reading accuracy, children learn to:

- Read new sounds and review previously taught sounds
- Sound out the names of characters and unfamiliar words
- Understand the meanings of new words
- Read the story (first read)

For reading fluency, children learn to:

- Read the words in the story speedily
- Track the story
- Read the story with increased speed (second read)

For reading comprehension, children learn to:

- Predict the outcome, after listening to a story introduction
- Discuss and compare key moments in the story
- Read the story with a storyteller's voice (third read)
- Answer questions about the story
- Read the same story at home
- Build background knowledge, ready to read the next storybook

Implementation

The Five Principles:

Children must pay attention in order to learn something new. However, they can only pay attention when:

- They are able to connect new learning with something they already know
- They are only expected to learn one new thing at a time
- They are challenged without feeling overwhelmed
- They are emotionally engaged

We follow the five core principles to teaching and learning. Our reading teachers must:

- Know the PURPOSE of every activity and share it with the children.
- Be PASSIONATE about teaching so they can engage the children
- Teach at an effective PACE
- Ensure that every child PARTICIPATES. We know that partner work is fundamental to this
- PRAISE effort and progress

Our Lessons

A typical 'Read Write Inc.' lesson includes the following elements, all with an aim to develop confidence in knowledge and skills:

Speed Sound Lesson

To teach phonic sounds, we use the 'Speed Sounds' approach of the Read Write Inc. programme to teach all Set One, Two and Three sounds with the intention that they are read effortlessly and purely:

- *Set One Sounds:* These are sounds that promote the skill of blending. These sounds are taught from Term One in the Foundation Stage.
- *Set Two Sounds:* There are twelve set 2 'Speed Sounds' that are made up of two or three letters which represent one sound. These sounds could be taught from Term Four of the Foundation Stage.
- *Set Three Sounds:* When learning their Set 3 speed sounds they will be taught that there are more ways in which the same sounds are written. These sounds will be taught in Year One.
- *Set Four Sounds:* These sounds are less common and have not been adapted by the Read Inc Programme. They are further alternative graphemes. We have chosen to include these sounds, from Term Five in Year One, to extend phonic knowledge.

Reading Activities

To apply their phonics knowledge, we use reading activities, taken from the Read Write Inc. programme of work, that include the use of the lively phonic books. These books are closely matched to the children's increasing knowledge of phonics and 'red' words and, as children re-read the stories, their fluency increases. These activities include:

- Story green words
- Speedy green words
- Red word cards
- Partner practice
- Story introduction
- First read- children
- Read aloud- teacher
- Second read- children
- Third read- children

Progression of Skills

The grid below shows expectations of progress. We are aware that some children will make faster or slower progress and will act accordingly.

EYFS	Group	They can read:
------	-------	----------------

Baseline	Group A	Fewer than 16 Set 1 single letter sounds
Autumn half term	Group B	More than 16 Set 1 single letter sounds
Autumn end of term	Group C	More set 1 single letter sounds and can blend sounds into words orally
Spring half term	Ditty	All Set 1 single letter sounds speedily. Can read most words.
Spring end of term	Red	All Set 1 sounds speedily. Can read most 'real' and 'nonsense' words.
Summer half term	Green	Can read most 'real' and 'nonsense' words.
Summer end of term	Purple	Read most words in their head.

Year One	Group	They can read:
Baseline	Green	Can read most 'real' and 'nonsense' words.
Autumn half term	Purple	Read most words in their head.
Autumn end of term	Pink	Read Set 2 sounds speedily. Read most words in their head.
Spring half term	Orange	Read Set 2 sounds speedily. Read most words in their head.
Spring end of term	Yellow	Read most nonsense words and in their heads.
Summer half term	Yellow	Read most nonsense words and in their heads.
Summer end of term	Blue	Read Set 3 sounds speedily. Reads 60-70 words per minute. Attempts to read with intonation to show comprehension.

Year Two	Group	They can read:
Baseline	Blue	Read Set 3 sounds speedily. Reads 60-70 words per minute. Attempts to read with intonation to show comprehension.

Autumn half term	Blue	Read Set 3 sounds speedily. Reads 60-70 words per minute. Attempts to read with intonation to show comprehension.
Autumn end of term	Grey	Read Set 3 sounds speedily. Reads 70-80 words per minute. Attempts to read with intonation to show comprehension.
Spring half term	Grey	Read Set 3 sounds speedily. Reads 70-80 words per minute. Attempts to read with intonation to show comprehension.
Spring end of term	Spelling Programme	
Summer half term	Spelling Programme	
Summer end of term	Spelling Programme	

Assessment and Grouping:

Our assessments are carried out by our RWI Assessor, supported by the RWI Leader. This ensures a consistent approach.

For the first four weeks of the academic year, children are taught just the Speed Sound lessons. There are three reasons for this:

1. The teachers can identify gaps in children's phonic knowledge and quickly teach them the sounds they need to know to fill these gaps.
2. It gives teachers time to practice and develop their teaching of Speed Sounds.
3. It gives the RWI and Assessor the time to carry out baseline assessments.

The Entry Assessment is the first assessment of the academic year. It is designed to group the children into broad Speed Sounds groups for the first four weeks of teaching RWI. Using this information, the children are placed in appropriate groups, based on their reading ability, not age. The information from this is inputted into an 'Assessment Tracker' so that progress can carefully be tracked.

From week five of teaching RWI, the children are grouped according to their reading progress and assigned a reading teacher. This is done so

on a 'best match' based on the teaching confidence, strength, age range experience and the number of children being taught.

Children are assessed and grouped according to their phonic knowledge. Each child reads books that match their phonic knowledge. Ongoing assessment means that groups are constantly adjusted to ensure the best progress for each child.

Using these assessments gives us a very good indication of how well they are making progress relative to their starting points. We do this for all pupils, whenever they join us, so we can track all of them effectively, including those eligible for the pupil premium.

In terms of the assessment trackers that we use, we use trackers from the Ruth Miskin School Portal and trackers that we have designed to further support our understanding. We record their starting date and entry point on all trackers, to monitor the rate at which they are making progress. Using the School Portal also gives our RWI mentor, a member of Ruth Miskin's team the opportunity to look and offer advice and support. These trackers are based on numbers, not children's names. For our own tracking purposes, we have designed RWI trackers which are provided to Reading teachers and Class Teachers. These inform the names of children and the progress they are making and it is clear whether they are making the expected progress as green shaded boxes indicate this. We assess pupils at the beginning of every half term, six assessments in total, to ensure they are making progress and are assigned to the correct phonics group. This is using the Assessments 1, 2 and 3 alternately. We can also easily identify those who joined the programme later if they were new to the school, for example. We aim for all children to be accurate and fluent readers by the time they enter Key Stage 2. We have high expectations of our pupils' progress.

One-to-one Tuition

All children can learn to read. However, we know that in some cases, children find it hard to pay attention when they work in a group or, some children may have a learning need that might mean they progress more slowly. We use the 'One-to-one' tuition to help these children make progress by giving them individual attention using the same Read, Write Inc. programme but with smaller teaching steps. This is described as 'keep up, not catch up'. These children are identified as quickly as

possible, ideally during the first two weeks of the academic year. The adults that carry out this tuition are our intervention teaching assistants, not based in a classroom, or one-to-one teaching assistants for those children who have specific learning needs. This intervention is daily and mostly short term.

Resources

The Read Write Inc. programme can be resourced and sustained at a reasonable cost. We have invested in the necessary resources to ensure that the programme can be taught effectively. These resources include reading books, movable working walls and flashcards. It is the role of the Phonic Coordinator to ensure that all staff have the resources that they require and need.

Home reading

Our children will make the best possible progress if they read as often as possible. We do not expect that all parents or carers will be available to read with their children so we ensure that children take books home that they can read to their parent or carer. The children will take home a RWI 'book bag book' at least every three days. 'Book Bag Books' are stories or non-fiction texts that has been carefully matched to each of the RWI storybooks read at school. The Book Bag book give children additional reading practice at home. In addition to this, we also offer 'shared book'. These 'shared' books are labelled as such and will be matched as closely as possible to the children's phonics level.

The Role of the RWI leader

The reading leader's role is to ensure that the programme is taught with fidelity and commitment. The key aspects of the role are to:

- Organise training
- Build a team of excellent reading teachers
- Monitor assessment of reading and to group children
- Organise one-to-one tutoring

The aim is to develop a team who can work together, practise together, talk together and give feedback to each other. Fortnightly meetings are a chance to achieve this.

As part of the RWI leader's role, in addition to the above, coaching is a tool used to observe lessons, up-skill reading teachers and share good

practice. The RWI leader will not have a group. The leader uses their time as follows:

- 30 minutes to plan and practise for the next practice session
- 30 minutes to carry out practice sessions with all reading teachers
- 10-15 minutes to coach each reading teacher
- 10-15 minutes for one-to-one practice sessions for a couple of reading teachers
- 5 minutes to coach every one-to-one tutor

Training:

We are a Ruth Miskin Training school. We work alongside a designated RWI trainer who monitors our progress and works with us during 'Development Days' to ensure all of our children make rapid progress, Speed Sounds training was undertaken by all staff members in September 2022. Regular training is provided using the training videos on the school portal.

Impact

As a result of the knowledge and skills that we intend to and will implement within the school, our pupils will achieve well. This achievement will be reflected through application in reading and writing in the broader curriculum and beyond. In addition, this will be reflected in the data and tracking systems that we have in place. Using this information, we will know when pupils are ready for the next stage in their learning and act accordingly. In doing this, the children will be successful, fluent readers by the end of Key Stage One.
